GENERAL INFO

DESIGNED FOR MAINS/TOWN WATER

Whole House Dual Water Filter Systems

Enjoy purified water at every outlet in the house. These systems are designed for mains water supplies reducing chlorine, taste & odour, chemicals and sediment in your water for the budget-conscious householder, giving good general purpose filtration. The system provides spring-like quality water throughout the house and is affordable for all.

This system protects and prolongs life of appliances throughout your home and features long-life filter cartridges. It operates on low pressure which is important when multiple taps are used simultaneously throughout the day.

These systems do not require power to operate, and are very easy to maintain, just replace the filter cartridge every 6-12 months or when the taste and odour returns.
