Bromic Waterboy™ Controller

The Bromic Waterboy pressure controller offers optimal control of household pumps. The Bromic pressure controller is completely automatic in its operation, able to start the pump according to demand.

- Fully weatherproof - IP65
- For use in domestic, irrigation and agricultural applications
- Large display panel
- Compatible with any above ground pump or submersible pump
- Supplied Electrical Lead suitable for use with any 10amp power outlet

Specifications

Part no.	7575372
Related supply voltage	240V
Max current amp	15A
Max power	3.0kW
Max working pressure	10 bar
Cut-in pressure	1.5 bar
IP rating	IP65

Why Waterboy Jet Pumps?

The Bromic Waterboy Jet Pump & Controller kit is an economical jet pump water supply unit for domestic household pressure systems and garden irrigation. The kit couples Bromic's self-priming stainless steel pump with an automatic 3kw pressure controller to deliver high flow rate performance.

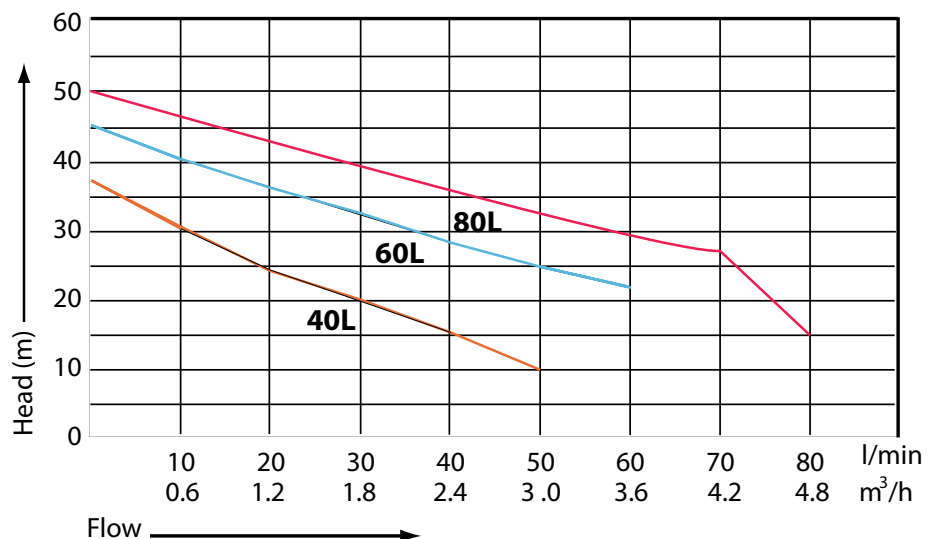

- Horizontal stainless steel self-priming pump
- Ideal for pumping clear water and other
- Non-aggressive liquids
- Economical and compact
- For use in domestic, irrigation and agriculture
- Supplied Electrical Lead suitable for use with any 10amp power outlet
